# ELIZA · User Story Map v2

Sprint 2 · Jira project KAN on 08/11/2026 (v1: 27/10/2026) · 🟨 user story 🟦 task (not a user goal of its own; linked to the stories it serves) ⬜ Sprint 1 story, historical record ⬚ backlog, not committed · KAN-8 updated as in Jira on 14/11/2026: task KAN-222 added (Sprint 3)

Badges: story points feature Jira key · points from planning poker: Sprint 1 55, Sprint 2 73; later work is estimated at its sprint planning (– SP) · Cards show the Jira title; the full story text, criteria and tests are on each epic's story requirements page · Since v1, after the Sprint 1 review: committee work became tasks; KAN-24 and KAN-25 were merged into KAN-2; KAN-202 and KAN-75 became evaluation tasks

**Requirement**

An information assistant on the EU AI Act for technical teams at EdTech providers: they find which provisions relate to their education AI system and what they require, in plain language and always with the cited source (consolidated text of 27/07/2026), without a legal verdict.

| | Product: what the user does with the assistant | | | | Project work that builds and measures the product | | | |
