ELIZA · User Story Map v2

Sprint 2 · Jira project KAN on 08/11/2026 (v1: 27/10/2026) · 🟨 user story 🟦 task (not a user goal of its own; linked to the stories it serves) ⬜ Sprint 1 story, historical record ⬚ backlog, not committed

Badges: story points feature Jira key · points from planning poker: Sprint 1 55, Sprint 2 73; later work is estimated at its sprint planning (– SP) · Cards show the Jira title; the full story text, criteria and tests are on each epic's story requirements page · Since v1, after the Sprint 1 review: committee work became tasks; KAN-24 and KAN-25 were merged into KAN-2; KAN-202 and KAN-75 became evaluation tasks

Requirement

An information assistant on the EU AI Act for technical teams at EdTech providers: they find which provisions relate to their education AI system and what they require, in plain language and always with the cited source (consolidated text of 27/07/2026), without a legal verdict.

	Product: what the user does with the assistant				Project work that builds and measures the product				
Features	F1 Ask in their own words F5 Guided start *(backlog)*	F2 Find the relevant provisions F3 Plain-language answer F7 Follow-up questions *(backlog)*	F6 Check the source	F4 Boundary notices Privacy safeguard (C-10)	Project deliverables D1–D11 (charter, question sets, source corpus, design, releases, pilot and final evaluation) and the course's sprint documents				
Epics	Ask KAN-15	Find and Understand KAN-16	Show the Source KAN-17	Know the Limits KAN-18	Project charter and sprint reporting KAN-27	Evaluation KAN-28	Source corpus KAN-29	System design and delivery KAN-30	
Stories and tasks					Judge whether the plan can hold 8 SP Sprint 1 record KAN-69 Check that the delivery plan fits the course calendar 8 SP Sprint 1 record KAN-70 Decide whether to approve the project's purpose and scope 13 SP Sprint 1 record KAN-79 Know which stories I can start and when my work is done 5 SP Sprint 1 record KAN-80		Work from one verified copy of the source 5 SP Sprint 1 record KAN-67	Agree on the technologies for the baseline 13 SP Sprint 1 record KAN-81 Close my gaps in the Sprint 1 fundamentals 3 SP Sprint 1 record KAN-82	**Sprint 1 Pre-alpha** 14/10–28/10
		See the provisions that relate to my use case, with their references 8 SP F2 KAN-8			Write Project Charter v2 from the Sprint 1 feedback 5 SP task KAN-89 Finalize the user stories, Story Map v2 and the story tests 8 SP task KAN-90 Run the Sprint 2 reporting: welcome page, burndown, retrospective and review 5 SP task KAN-91	Test the assistant on in-scope questions checked against the official text 13 SP KAN-65 Test the assistant's safety responses against a written rubric 5 SP KAN-83	Index every in-scope provision with its reference and version date serves KAN-8 8 SP task KAN-86	Build and measure the baseline retrieval serves KAN-8 13 SP task KAN-87 Update the Sprint 2 architecture design and technical documentation serves KAN-21, KAN-22 8 SP task KAN-88	**Release Alpha 0.1** Sprint 2 · 18/11
	Ask about my product in my own words – SP F1 KAN-19 Use the assistant in my browser – SP Interface KAN-21	Understand the relevant requirements in plain language – SP F3 KAN-4		Get regulatory information, never a legal decision – SP F4 KAN-2 Get a notice when my question is out of scope – SP F4 KAN-5 Get a notice when the provisions do not answer my question – SP F4 KAN-23 Avoid sharing personal information when asking questions – SP C-10 KAN-26	Follow Sprint 3 from one welcome page – SP task KAN-171	Extend the question set for the beta serves KAN-65, KAN-83 – SP task KAN-170		Run the whole pipeline from one README serves KAN-21 – SP task KAN-168 Measure the beta against the baseline and the charter targets serves KAN-2, KAN-8 – SP task KAN-169	**Release Beta 0.5** Sprint 3 · 09/12
		See when the AI Act rules apply to our product – SP F2 KAN-3 Understand the assistant's answers without legal training – SP Pilot, O3 KAN-72 Evaluate search-time improvement against manual lookup (O1) serves KAN-8, KAN-19, KAN-21, KAN-72 – SP task Pilot, O1 KAN-202	Read the cited source text behind an answer – SP F6 KAN-22 Rely on cited provisions confirmed on unseen questions – SP F6 KAN-77	Run the final O4 safety evaluation on the held-out test split serves KAN-2, KAN-5, KAN-23 – SP task F4, test split KAN-75	Follow Sprint 4 from one welcome page – SP task KAN-204			Use a release candidate with the pilot problems fixed – SP KAN-203	**Release RC 1.0** Sprint 4 · 30/12
	Start from example questions or my use case – SP F5 KAN-20	Ask follow-up questions about our product in the same session – SP F7 KAN-6							**Backlog** only if time allows
